Article 4 of Rules and Regulations Pertaining to Appropriation of Water]

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

Application No. 20137 A Filed May 18, 1961, at 11:33 A. M.
(Applicant must not fill in the above blanks)

APPLICATION TO APPROPRIATE UNAPPROPRIATED WATER
AMENDED APPLICATION RECEIVED 7-17-61 - 8-1-61

Notice of Assignment (Over)

I, Kimberly W. Mosier, representing the Tahoe Mutual Water Co. (not formed at this date)
Name of applicant or applicants
 of 1401 Moon Avenue Sacramento 22, County of Sacramento
Address
 State of California, do hereby make application for a permit to appropriate the
 following described unappropriated waters of the State of California, SUBJECT TO VESTED RIGHTS:

Source, Amount, Use and Location of Diversion Works

1. The source of the proposed appropriation is Lake Tahoe
Give name of stream, lake, etc., if named; if unnamed state nature of source and that it is unnamed
 located in Placer County, tributary to Truckee River

2. The amount of water which applicant desires to appropriate under this application is as follows:

Letter of
March 12, 1964

(a) For diversion to be directly applied to beneficial use 0.0615 cubic foot per second ~~X~~ to be diverted from January 1 to December 31 of each year.

0.0615 cubic foot per second
1 cubic foot per second equals 40 statute miner's inches or 646,317 gallons per day

(b) For diversion to be stored and later applied to beneficial use 1 acre-foot equals 325,851 gallons per annum, to be collected between Beginning date and Closing date of each season.

NOTE.—Answer (a) or (b) or both (a) and (b) as may be necessary. If amount under (a) is less than .025 cubic foot per second, state in gallons per day. Neither the amount nor the season may be increased after application is filed. If underground storage is proposed a special supplemental form will be supplied by the State Water Rights Board upon request.

3. The use to which the water is to be applied is domestic
Domestic, irrigation, power, municipal, mining, industrial, recreational
 purposes.

4. The point of diversion is to be located from SW corner of Section 25, N^{45°}E, 4400' to the shore of Lake Tahoe

being within the SW^{1/4} of NE^{1/4}
State 40-acre subdivision of public land survey or projection thereof
 of Section 25, T. 15N, R. 16E, M.D. B. & M., in the County of Placer

5. The main conduit terminates in S^{1/2} of NW^{1/4} of Sec. 25, T. 15N, R. 16E, M.D. B. & M.
State 40-acre subdivision of U. S. Government survey or projection thereof

Description of Diversion Works

NOTE.—An application cannot be approved for an amount grossly in excess of the estimated capacity of the diversion works.

6. Intake or Headworks (fill only those blanks which apply)

(a) Diversion will be made by pumping from Lake Tahoe by means of a pump to the subject property.
Sump, offset well, unobstructed channel, etc.

(b) Diversion will be by gravity, the diverting dam being feet in height (stream bed to level of overflow); feet long on top; and constructed of
Concrete, earth, brush, etc.

(c) The storage dam will be feet in height (stream bed to spillway level); feet long on top; have a freeboard of feet, and be constructed of
Concrete, earth, etc.

7. Storage Reservoir

Name

The storage reservoir will flood lands in
Indicate section or sections, also 40-acre subdivisions unless shown upon map

It will have a surface area of acres, and a capacity of acre-feet. If reservoir has a capacity of 25 acre-feet or more fill in the following: Diameter of outlet pipe inches; length feet; difference in elevation from spillway level to highest point of outlet pipe feet; fall in pipe feet.

~~In case of insufficient space for answers in form, attach extra sheets at top of page 3 and cross reference.~~

Conduit System (describe main conduits only)						
(a) Canal, ditch, flume: Width on top (at water line) _____ feet; width at bottom _____ feet; cost of two not used _____						
feet; depth of water _____ feet; length _____ feet; grade _____ feet per 1,000 feet; materials _____						
feet; depth of water _____ feet; length _____ feet; grade _____ feet per 1,000 feet; materials _____						
(b) Pipe line: Diameter _____ inches; length _____ 2000 feet; grade _____ 500 feet per						
1,000 feet; total lift _____ from intake to outlet 1000 feet; kind _____ dished and wrapped steel _____ twisted steel, concrete, wood-sheathing, etc.						
Note.—If a combination of different sizes or kinds of conduit is to be used, attach extra sheets with complete description, also show location of each clearly on map.						
9. The estimated capacity of the diversion conduit or pumping plant proposed is 1.0 cubic foot second.						
The estimated cost of the diversion works proposed is \$ 10,000						
Gives only cost of intake, or headwork, pumps, storage reservoirs and main conduits described herein.						
10. Construction work will begin on or before July 1, 1962						
Construction work will be completed on or before no later than 3 years from beginning of work.						
The water will be completely applied to the proposed use on or before no later than 3 years from the beginning of work.						
11. Place of Use. Sec. of NW ¹ , sec. N ¹ of SW ¹ of Section 25, T15N, R16E, MDBM.						
Approximately 28 acres within Latency of _____ March 12, 1964						
Survey were projected. In the case of irrigation use state the number of acres to be irrigated in each 40-acre tract, if space permits. If space does not permit listing of all 40-acre tracts, describe area in a general way and show detail upon map.						
All joint owners should include their names as applicants and sign application at bottom of third page.						
Do(es) applicant(s) own the land wherein use of water will be made? Yes _____ Jointly? Yes _____						
If applicant does not own land wherein use of water will be made, give name and address of owner and state what arrangements have been made with him.						
12. Other Rights. Describe all rights except those on file with the State Water Rights Board under which water is served to the above named lands.						
Attach supplement at top of page 3 if necessary.						
13. Irrigation Use. The area to be irrigated is _____ acres.						
The segregation of acreage as to crops is as follows: Rice _____ acres; alfalfa _____ acres; _____ acres.						
Note.—Care should be taken that the various statements as to acreage are consistent with each other, with the statement in Paragraph 11, and with the map.						
14. Power Use. The total fall to be utilized is _____ feet.						
The maximum theoretical horsepower capable of being generated by the works is _____ horsepower.						
The use to which the power is to be applied is _____						
Second feet X fall = 8.8						
The size of the nozzle to be used is _____ inches.						
The nature of the works by means of which power is to be developed is _____						
Turbine, Pelton wheel, etc.						
Site 40-acre subdivision _____ in Nameiram _____ Sec. 40-acre subdivision						
Sec. 28 M. T. R. Sec. 28 M.						

DO NOT WRITE IN THIS SPACE
ATTACH EXTRA SHEETS HERE

15. Municipal Use. This application is made for the purpose of serving _____
Name city or cities, town or towns. Urban areas only
having a present population of _____

The estimated average daily consumption during the month of maximum use at the end of each five-year period until the full amount applied for is put to beneficial use is as follows:

16. Mining Use. The name of the mining property to be served is _____
Name of claim
and the nature of the mines is _____
Gold placer, quartz, etc.

The method of utilizing the water is _____

It is estimated that the ultimate water requirement for this project will be _____

Cubic feet per second, gallons per minute. State basis of estimate

The water will _____ be polluted by chemicals or otherwise

Explain nature of pollution, if any

and it will _____ be returned to _____

Name stream in _____

of

State 40-acre subdivision

Sec. _____, T. _____, R. _____, B. & M.

17. Other Uses. The nature of the use proposed is _____
domestic only
Industrial, recreational, domestic, stockwatering, fish culture, etc.

State basis of determination of amount needed. Planned 140 lots times 3.5 persons per lot equals
Number of persons, residences, area of domestic lawns and gardens, number and kind of stock, type
500 persons; 200 gallons per person per day equals 100,000 gallons per day pursuant
industrial use, and unit requirements
to letter received by me from the State Water Rights Board July 10, 1961.

To be used for domestic purposes only.

General

18. Are the maps as required by the Rules and Regulations filed with Application? Yes _____ If not,
Yes or No

state specifically the time required for filing same 2 U.S.G.S. Quadrangle maps

19. Does the applicant own the land at the proposed point of diversion? no _____ If not, give name and
Yes or No

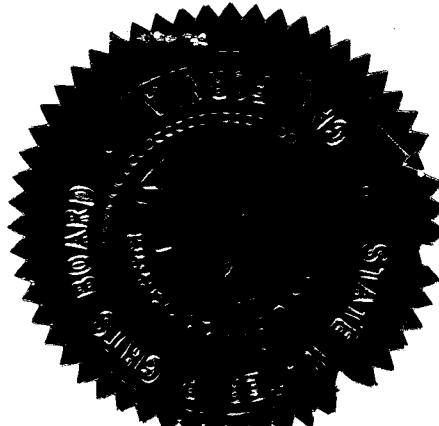

address of owner and state what steps have been taken to secure right of access thereto Robert Williams
2209 Boulton Way, Marysville, California is providing a right-of-way access easement.

20. What is the name of the post office most used by those living near the proposed point of diversion?

Tahoe Pines which is about one mile to the north of the property to be served.

21. What are the names and addresses of claimants of water from the source of supply below the proposed point of diversion?
There are none.

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which it is intended for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1392. Every permittee shall at any time be assigned to or claimed for any entity granted for issuance under the provisions of this division (of the Water Code), or for any rights granted to be rendered under the provisions of this division (of the Water Code), in respect to the holder of any rights granted by any corporation authority of the services or the price of the services to be rendered by any corporation authority of this division (of the Water Code), or in respect to any rights granted to be rendered under the provisions of this division (of the Water Code), in respect to the holder of any rights granted by any corporation authority of the services or the price of the services to be rendered by any corporation authority of this division (of the Water Code), or in respect to any rights granted to be rendered under the provisions of this division (of the Water Code), in respect to the holder of any rights granted by any corporation authority of the services or the price of the services to be rendered by any corporation authority of this division (of the Water Code), or in respect to any rights granted to be rendered under the provisions of this division (of the Water Code), in respect to the holder of any rights granted by any corporation authority of the services or the price of the services to be rendered by any corporation authority of this division (of the Water Code), or in respect to any rights granted to be rendered under the provisions of this division (of the Water Code), in respect to the holder of any rights granted by any corporation authority of the services or the price of the services to be rendered by any corporation authority of this division (of the Water Code).

Section 1393. No water shall be appropriated under this permit until the permittee have established a mutual water company or some other organization capable, to the satisfaction of the State Water Rights Board, of supplying the place of use on a continuous and permanent basis.

Section 1394. Every permittee shall allow representatives of the State Water Rights Board, and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit.

Section 1395. All rights and privileges under this permit including method of diversion, method of use and quantity of water, are subject to the continuing authority of the State Water Rights Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable method of use or unreasonable method of diversion of said water.

Section 1396. Progress reports shall be filed promptly by permittee on forms which will be provided annually by the State Water Rights Board until license is issued.

Section 1397. Complete application of the water to the proposed use shall be made on or before December 1, 1970.

Section 1398. Said construction work shall be completed on or before August 1, 1964.

Section 1399. Actual construction work shall begin on or before August 1, 1964, and shall thereafter be prosecuted with reasonable diligence, and if not so commenced and prosecuted this permit may be revoked.

Section 1400. The maximum amount herein stated may be reduced in the license if investigation warrants.

Section 1401. The amount of water appropriated shall be limited to the amount which can be beneficially used, and shall not exceed 0.0615 cubic foot per second by direct diversion, not to exceed 3.46 acre-feet in any one month, nor to exceed 19.23 acre-feet in any one year, to be diverted from January 1 to December 31 of each year.

Section 1402. The application of which the foregoing is a true and correct copy has been considered and approved by the State Water Rights Board SUBJECT TO VESTED RIGHTS and the following limitations and conditions:
